

# The 23rd ISHC Congress

in Glasgow, Scotland from **July 30 — August 4, 2011**

**ICHC2011**

23rd International Congress on  
Heterocyclic Chemistry

SECC, Glasgow, Scotland  
July 30 - August 4, 2011

## NEWS FLASH!!!!!!!!!!!!

The nominations are in and counted. The 2011 ISHC awardees for the senior and junior awards in heterocyclic chemistry are respectively **SCOTT E. DENMARK** of the University of Illinois and **PHIL S. BARAN** of the Scripps Research Institute. Both Professors will be presenting at the upcoming **ICHC 2011 conference** in Glasgow Scotland. Congratulations Scott and Phil!

On Sunday July 31st, an informal reception will take place at the Glasgow Science Center.

The Congress Dinner to be held at the magnificent Art Gallery and Museum, Kelvingrove. Kelvingrove first opened its doors to the public on 2 May 1901. It houses one of the finest civic collections in Europe and is an iconic Glasgow landmark. Dine amidst the splendour and history of the Art Gallery and Museum, Kelvingrove. Cost £58.75 per person.

A list of speakers participating in the program can be found on the congress web site (<http://www.ichc2011.com>).

**Join the ISHC and save on your upcoming registration!!!!**

## Registration Open Speakers for ICHC23

David MacMillan  
(Princeton University, USA)

Alois Furstner  
(Max Planck Inst., Muelheim  
Germany)

Jeffrey Aube  
(University of Kansas, USA)

Michael Crimmins  
(UNC, USA)

Da Wei Ma  
(SIOC, China)

Ganesh Pandey  
(India)

Anthony Wood  
(Pfizer, UK)

Vinod Singh  
(Indian Institute of Technology)

Oliver Kappe  
(University of Graz, Austria)

Magid Abou-Gharbia  
(Temple University, USA)

Janine Cossy  
(ESPCI, France)

Phillippe Renaud  
(University of Bern, Switzerland)

Andrew Holmes  
(University of Melbourne, Au)

Shigehiro Yamaguchi  
(Nagoya University, Japan)

Jack Sechrist  
(Southern Research Institute, USA)

Martin Bryce  
(University of Durham, England)

Thomas Carell  
(University of Munich, Germany)

Goverdhan Mehta  
(Indian Institute of Technology,  
Bangalore)

Keiji Maruoka  
(University of Kyoto, Japan)

Ted Taylor  
(Princeton University, USA)

David O'Hagan  
(University of St Andrews, Scotland)

With just six months to go, ICHC23 in Glasgow is taking shape. By the time the Newsletter reaches you the website that has been logging those interested and providing updates on the programme of speakers will have gone live to receive registrations and abstracts. We've been delighted by the very positive response from all of the speakers invited. In fact no-one who was available turned down an invitation, which is evidence for the very high regard in which ICHCs are held by the community. We've had over 10,000 hits on the website which is a further measure of strong interest in ICHC23.

The Scientific Programme has been themed to include sessions on target synthesis, synthetic methodology, chemical biology, materials chemistry, and medicinal chemistry, each led by plenary and invited lectures from scientists world wide. We'll build the programme with contributed papers and posters around these themes. A very preliminary draft programme with such indicative titles as we have is included in this newsletter. It's a very impressive list of basic and applied heterocyclic chemistry that will encourage and challenge us all in

our research and teaching over the next few years.

No-one will be surprised to learn that planning and promoting a major international conference in hard economic times is difficult. Whilst we've had strong financial support from the public sector in Scotland, the private sector all round has drastically reduced the scale of financial support from what was normal at the time we bid for ICHC23, which was nearly four years ago. We've therefore decided to prioritise the scientific programme in our planning and this means that there are some changes from the standard weekly pattern for our congresses.

In order to keep venue hire costs to the minimum but maintain the length and content of the scientific programme, we have decided to close the Congress on Thursday. To do this means running four very full days of science but by theming the sessions, we hope that participants will still have some time to enjoy both the science and Scotland. There will be a full excursions programme in parallel with the science from Monday to Thursday and through our conference managers (Meeting Makers) we will also be offering tours on the Friday. Evening social events include the Welcome Reception in the Glasgow Science Centre, where we find that even experienced scientists have fun pushing the buttons to see what happens, and the Congress Dinner in the grand Victorian surroundings of Glasgow's Kelvingrove Museum and Art Gallery.

By taking these actions, we have been able to hold the cost to participants very close to the level of 2009; the registration fees are listed on the accompanying flyer. Please note the substantial discounts on offer to ISHC members and for early registration. Another point to note is that Value Added Tax in the UK rises to 20% in January 2011 and this must be reflected in our charges. Although the tax is recoverable for non-EU residents, those of us from the European Union can save money by registering before the end of 2010. As you will see, a further discount is being offered for groups of scientists registering together.

Whilst finance is important, the success of a conference is measured also in terms of the scientific content and personal and scientific interactions that it makes possible. This is where our membership comes in. The best way to ensure success of ICHC23 is through your attendance and participation. So wherever you are in the world, please visit <http://www.ichc2011.com> to register and send us your abstract. We'll look forward to welcoming you to Glasgow at the end of July next year.

*Colin Suckling*  
*Chair, ICHC23*

[c.j.suckling@strath.ac.uk](mailto:c.j.suckling@strath.ac.uk)

The 23rd International Congress on Heterocyclic Chemistry (ICHC-23) will be held at the Scottish Exhibition and Conference Centre (SECC) on the banks of the river Clyde in Glasgow, Scotland.

# ICHC2011

23rd International Congress on  
Heterocyclic Chemistry

SECC, Glasgow, Scotland  
July 30 - August 4, 2011

## Programme

The programme will include an exciting range of cutting edge heterocyclic chemistry on offer to reflect recent advances in a truly international coverage. Five main themes of heterocyclic chemistry will be covered.

synthetic methodology

natural product and complex  
molecule synthesis

materials

medicinal chemistry

nanochemistry.

## Speakers

A list of speakers participating in the programme can be found on the congress web site (<http://www.ichc2011.com>).

## Abstract Submission

Abstracts can now be submitted on-line through the web site. Abstract guidelines and submission details can be found at the following web page <http://www.ichc2011.com/abstract-submission.asp>.

## Registration Fees

Abstracts can now be submitted on-line through the web site. Abstract guidelines and submission details can be found at the following web page <http://www.ichc2011.com/abstract-submission.asp>.

	Before 1 May 2011	After 1 May 2011
<b>ISHC Member</b>	<b>£392.00</b>	<b>£470.00</b>
Non-Member	£470.00	£540.00
Student	£188.00	£247.00
One Day	£118.00	£165.00

Fees include VAT at 17.5%. Please note that the VAT rate will change from 17.5% to 20% on 1 January 2011 and fees will adjust accordingly.

## Research Team Discount

The Local Organising Committee is keen to encourage group attendance and would like to offer a discount to Research Team Leaders bringing more than two members of their team. A discount of 30% will be offered for any registrations for a third team member and any subsequent team members. To qualify for the discount, registrations must be completed as a group.

## Delegate Registration

All fully registered delegates will receive the following:

- Admission to all sessions
- Admission to the Welcome Reception
- Name Badge permitting access to all sessions
- Admission to the exhibition
- Delegate Bag
- Refreshments during the coffee breaks

# ISHC Senior Award & Katritzky Junior Award

## PAST AWARDEES

### ISHC Senior Award

2011 — Professor Scott Denmark  
2007 — Professor K.C. Nicolaou  
2005 — Professor L. E. Overman  
2003 — Professor T. Fukuyama  
2001 — Professor V. Snieckus  
1999 — Professor A. Padwa  
1997 — Professor A. I. Meyers  
1995 — Professor C. W. Rees  
1993 — Professor A. R. Katritzky  
1991 — Professor W. Pfeleiderer  
1989 — Professor E. C. Taylor  
1987 — Professor R. Huisgen  
1985 — Professor T. Kametani  
1983 — Professor R. Castle  
1981 — Professor H. van der Plas

### ISHC Junior Katritzky Award

2011 — Professor Phil Baran  
2009 — Professor John Wood  
2007 — Professor David Macmillan  
2005 — Professor A. Fürstner  
2003 — Professor P. Wipf  
2001 — Professor W. H. Pearson  
1999 — Professor T. Gallagher  
1997 — Professor D. L. Boger

## NOMINATIONS

The ISHC is also calling for nominations for the 2013 ISHC Katritzky Junior Award and the 2013 ISHC Senior Award. Nominations for both awards must reach the President by **December 1st, 2012** at the latest by email ([richard.taylor@york.ac.uk](mailto:richard.taylor@york.ac.uk)).

## ISHC ON THE INTERNET

The Society is on the web at <http://www.ishc-web.org>! The website provides links to congress pages and past newsletters and provides email addresses for its governing board. The International Society of Heterocyclic Chemistry also maintains groups on Linked-In and Facebook. We encourage members to join these groups on their social networking sites.

## MEMBERSHIP

Instructions for joining the ISHC are found on our website < <http://www.ishc-web.org> >. The annual dues are \$55.00 [US\$] for Ph.D. and research scientists, and \$20.00 [US\$] for certified pre-doctoral students. Multiple year memberships subscriptions are encouraged. You will receive free electronic copies of Progress in Heterocyclic

Chemistry (PHC), *you can participate in the ICHC2011 meeting in Glasgow Scotland with 17% reduced registration costs*, and you can receive a 20% discount in your subscription to [Heterocycles](#) and a 25% discount on most [Elsevier](#) products.

Join the Society, membership has its benefits.

## HISTORY OF ISHC

The International Society of Heterocyclic Chemistry (ISHC) was established in August, 1968, in Albuquerque, New Mexico, in the USA by Dr. Raymond N. Castle (1916-1999). The function of the society is to promote heterocyclic chemistry, in particular by serving as the primary sponsoring agency for the International Congress of Heterocyclic Chemistry (ICHC), a large biannual

meeting typically attracting up to a thousand participants. Further aims of the ISHC are to honor persons who have made outstanding contributions to the field with two distinguished Awards and the appointment of ISHC Fellows. The ISHC is also actively involved in the publication of "Progress in Heterocyclic Chemistry" (PHC) a major reference work on heterocyclic chemistry.

## THE GOVERNANCE OF THE INTERNATIONAL SOCIETY OF HETEROCYCLIC CHEMISTRY

**Executive Members**

Professor Richard J. K. Taylor, *President*  
The University of York,  
Department of Chemistry, Heslington  
York YO10 5DD, United Kingdom  
e-mail: [rjkt1@york.ac.uk](mailto:rjkt1@york.ac.uk)

Professor Dawei Ma *President-Elect*  
Department of Chemistry  
Shanghai Institute of Organic  
Chemistry  
345 lingling Rd. Shanghai 200032  
P.R. China  
e-mail: [madw@mail.sioc.ac.cn](mailto:madw@mail.sioc.ac.cn)

Professor **Colin Suckling**, *Vice-President*  
*and 2011 ISHC Congress Organizer*  
Department of Chemistry,  
University of Strathclyde  
16 Richmond Street, Glasgow G1  
1XQ, Scotland, United Kingdom  
e-mail: [c.j.suckling@strath.ac.uk](mailto:c.j.suckling@strath.ac.uk)

Dr. **Stan Lang**, *Treasurer*  
8274 Hemingway Lane  
Mentor OH 44060, USA  
Fax: 440 - 358 - 1792  
e-mail: [stanleylang13@gmail.com](mailto:stanleylang13@gmail.com)

**Advisory Committee**

Professor C. Oliver Kappe  
Institute of Chemistry,  
Karl-Franzens-University Graz,  
Austria  
e-mail: [oliver.kappe@uni-graz.at](mailto:oliver.kappe@uni-graz.at)

Michael J. Martinelli, Ph.D., *Vice President*  
Pharmaceutical Development  
Arena Pharmaceuticals, Inc.  
6166 Nancy Ridge Drive  
San Diego, CA 92121  
e-mail: [mmartinelli@arenapharm.com](mailto:mmartinelli@arenapharm.com)

Professor Teck-Peng Loh  
School of Physical & Mathematical  
Sciences  
Nanyang Technological University  
Singapore  
e-mail: [teckpeng@ntu.edu.sg](mailto:teckpeng@ntu.edu.sg)

**Members At Large**

Professor **James Cook**  
Department of Chemistry  
University of Wisconsin-Milwaukee  
Milwaukee WI 53211 USA  
e-mail: [capncook@uwm.edu](mailto:capncook@uwm.edu)

Professor **Tomas Hudlicky**  
Department of Chemistry,  
Brock University, St. Catharines,  
Ontario, L2S 3A1, Canada  
e-mail: [thudlicky@brocku.ca](mailto:thudlicky@brocku.ca)

Professor Karl Hemming  
School of Applied Sciences  
University of Huddersfield,  
Huddersfield, HD1 3DH, United  
Kingdom  
e-mail: [k.hemming@hud.ac.uk](mailto:k.hemming@hud.ac.uk)

*Website and Internet Development*  
Professor **T. R. R. Pettus**, *Publicist*  
Department of Chem. & Biochem.  
University of California, Santa Barbara  
Santa Barbara CA 91360  
e-mail: [pettus@chem.ucsb.edu](mailto:pettus@chem.ucsb.edu)

## ISHC MEMBERSHIP AND SOCIETY FINANCES

The financial condition of the Society is reasonably solid, thanks to the increase in membership dues in 2010, the first increase since 2003. Stan Lang, the Society's treasurer, reported that the membership currently exceeds 400. Considering the tremendous amount of heterocyclic chemistry being done worldwide, we believe the Society could have even more members, and it is important that we try to increase our membership. You can help by convincing your colleagues, coworkers, and former collaborators that membership in the ISHC has important

advantages, several of which are outlined at the right. Membership would be particularly advantageous for those colleagues planning to attend the Congress in 2011 in Glasgow. Also, note that a graduate student membership is relatively inexpensive, so encourage you students to join. since this is a good way to recruit the next generation.

*Benefits of Membership.*

1. Participation in the Congress at significantly reduced registration rates. **Save 17%, over £70.00!!!!**

2. Obtain Congress abstracts of papers at no cost even if not in attendance.

3. Subscribe to Heterocycles at 20% discount.

4. Receive 25% discount from Elsevier on many different books.

5. Free electronic copy of Progress in Heterocyclic Chemistry (PHC).

# Invoice for Yearly Dues

*Jan 1, 2011-Dec, 31, 2011*

title	Sur Name	First Name	Institution		
address			email address		
City	State	Zip Code	Country		
Predocctoral student (yes/no)	Amount of Dues Being Paid (\$20 for pre-docs) (\$55 everyone else) Add \$45 for PHC hardcopy	Method of Payment Credit Card (AMEX, Visa & MC only) / Paypal / USA-Check / Money Order			
Authorization Signature	Expiration Date (mm/yy)	USA Zip Code of Billing Addr.	Number on Credit Card add one space between each of the numbers	Security Code	
Your Fax #	Your Phone #	Do you want a hard copy of (Progress in Heterocyclic Chemistry)? If Yes, then be sure to add \$45 to you membership payment.			

Your full membership in the ISHC for the calendar year 2011 includes an electronic copy of "Progress in Heterocyclic Chemistry". In addition, your membership entitles you to a subscription to [Heterocycles](#) at 20% discount, and purchase of many different books from [Elsevier](#) at a 25% discount. These other inducements are for full members only and do not apply to Student Members. **However, both student and full members are able to participate in the ISHC congress at a significant savings.** For full-members who want a hard copy of PHC, it can be purchased for an additional \$45 US.

## PAYPAL

You must first have a paypal account. Once you have an account, click on **Send Money**. Next, select **Personal** instead of **Purchase**. The money is being sent as a: **Payment Owed**. Add the correct amount and then add the email address for sending the payment <stanleylang13@gmail.com> and click **Continue** and then follow the instructions. Be sure to email or mail this complete form to Stanley Lang, Ph.D. 8274 Hemingway Lane Concord Twp, OH 44060, USA. Should problems arise, contact Stan by e-mail: stanleylang13@gmail.com or phone: 714 - 697 - 0249.

## CHECK OR MONEY ORDER

Please make your check or money order in US-dollars and payable to "**The International Society of Heterocyclic Chemistry**" and mail it along with this completed form to Stanley Lang, Ph.D. 8274 Hemingway Lane Concord Twp, OH 44060, USA. Should a problem arise, you may contact him by e-mail: stanleylang13@gmail.com or or phone: 714 - 697 - 0249

## CREDIT CARD PAYMENTS

Please mail, email, or fax this completed form to Stanley Lang, Ph.D. 8274 Hemingway Lane Concord Twp, OH 44060, USA. Fax: 440 - 358 - 1792. Should a problem arise, you may contact him by e-mail: stanleylang13@gmail.com or phone: 714 - 697 - 0249
